

SPECIAL *Event* RENTALS

"We Rent for Any Event!"

Please follow the provided instructions on how to prepare rental items for transport:

- All dishes must be clear of food, rinsed and shrink-wrapped to eliminate movement.
- Cargo should be palletized and shrink-wrapped together for better security when shipping.
- Padding such as newspaper, cardboard or bubble wrap must be packed on the bottom and sides when using crates.
- Ensure load is secure before transporting.

If you require further assistance, please call and ask for our customer service assistants. If you are calling after regular business hours and your request is an emergency, please wait for the automated message and **follow the prompts**.

Thank you for choosing Special Event Rentals and we look forward to working with you again.

Have a terrific event!
